Efficiency

Duty of care

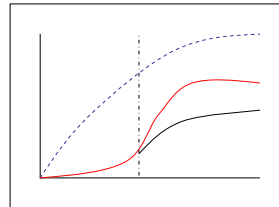

Ecosystem health
Biodiversity conservation

Co-operative environmental Federalism

1. **Clarity:** define the environmental ‘imperatives’

2. **Equity:** shared responsibility

1. Duty of care
2. Environmental services
3. ‘Naturalness’

3. **Flexibility:** national policies sympathetic to regional circumstance

“History consists of a succession of excursions from a single starting point to which humanity returns time and time again to organise yet another search for an enduring set of values”
